SECTION 32, T 9 N, R 1 E

1. On Nov. 5, 1982, the following boundary line work was completed: located & witnessed the NE section corner stone; located and marked the east NS line of NE $\frac{1}{4}$, NE $\frac{1}{4}$ with orange tree marking paint. The stone is described and was witnessed as follows: 2 $\frac{1}{2}$ " X 8" protruding 1' from ground with U-shaped NS notch across top; 5.8' to 7.7" white oak at Az 202°, 7' to 12.3" pignut hickory at Az 42°, 16.1' to 4.2" sugar maple with fence wire attached at Az 98°. No steel stake was driven next to the stone. One boundary line sign was nailed to the 7.7" white oak in a NS orientation.

3. On September 13, 1988 I repainted and reposted the boundary line run on Nov. 5, 1982 which included the following: E line of the NE $\frac{1}{4}$, NE $\frac{1}{4}$, Sec. 32. Additional boundary signs were placed along the line and additional trees were painted to make the line more visible. Signs were placed on ridgetops and bottoms of ravines or along every 220 feet of line or so. The Stone at the NE section corner was still present. A sign was placed along the S line at the turning corner of the SE corner of the NE $\frac{1}{4}$, NE $\frac{1}{4}$, Sec. 32.

4. On February 14, 1990 Marty Calvert, Asst Property manager, and I set SFP at the following corners: The NW, NE, & SE corners of the NE $\frac{1}{4}$, NE $\frac{1}{4}$ of this section. The NW corner was set according to an old fence corner intersection. This corner is suspect as there was a pinched pipe and a rebar further along the line to the west. However, the fence corner fits the topomap well and also a treeline heading west and an old fence line (buried) heading east. The fence to the south also lines up with this fence corner. The NE corner was a good looking stone with a prominent notch in it. The SE corner is vague and was set to approximate the intersection of 3 old fences running N, E, and W and also a tree line heading south.
